WHO AM I ?

Always involved in art and culture, I'm interested in the cinematographic work of Quentin Dupieux, Denis Villeneuve and Wes Anderson. What also motivates me a lot in life is music, starting with the Hip-Hop/Rap of Tyler, The Creator, then the Electro of Daft Punk, or the Jazz of various musicians... I'm someone who escapes through reading and writing. In fact, writing is one of the ways I express myself. It can be a humble text on a short journey, or a personal essay on a particular theme... Whatever my artistic and cultural sensibilities, I hope we'll meet! :)
